ni, Pakistan

Senior Full-Stack Engineer with 7+ years of experience building scalable web applications across publishing, e-commerce, and fintech. Specialized in modernizing legacy systems using Ruby on Rails, and AWS, with hands-on expertise in Kubernetes, Docker, and CI/CD. Technical leader pursuing an MS in Data Science at the University of Illinois at Chicago, focusing on AI-enabled engineering roles.

React.js, Next.js, PostgreSQL, AWS, Docker, Kubernetes, Terraform, CI/CD, REST APIs, GraphQL, System Design, Agile/Scrum

JavaScript (ES6+), Python, Ruby, SQL, C#

React.js, Next.js, Redux, Angular, HTMl, SASS, Tailwind CSS, Bootstrap, Material UI, Webpack
Node.js, Express.js, Nest.js, ASP.NET Core Web API, .NET Core, REST APIs, GraphQL, Socket.io, Microservices,

PostgreSQL, MySQL, MongoDB, AWS DynamoDB, Firebase, Supabase

AWS (EC2, S3, RDS, IAM, ALB, Cognito, CloudWatch, EC2, ECR), Terraform, Docker, Kubernetes, GitLab CI/CD, GitHub Actions

Jest, RSpec, JUnit, Playwright, RuboCop, Brakeman, ESLint, Prettier, Unit Testing

ETL Pipelines, Data Mining & Transformation, Feature Engineering, CubeJS, Data

Aggregation

Agentic AI, LLM Applications, AI Automation Workflows

or

Git, Jira, Pivotal Tracker, DevOps, Code, Agile/Scrum, Design Patterns, OOP, Technical Leadership

at

1
s !

- Built a financial card management system with secure transaction handling, banking workflow integrations, and unit-tested service layers for customer-facing financial services.
- Developed a custom CubeJS query builder with PostgreSQL-backed data pipelines, enabling dynamic data filtering and self-serve business intelligence reporting.
- Delivered full-stack features using React.js, Redux, and Material UI in close cross-functional collaboration with Canadian product, design, and QA teams in an agile environment.

|

Oct 2019 – Apr 2021 • Karachi, Pakistan

Daraz is a high-traffic e-commerce platform and one of South Asia's largest online marketplaces.

- Built Daraz Travel, a full-stack ticket booking platform for intercity bus reservations serving thousands of daily transactions, including seat selection, checkout, payment integration, and admin dashboards.
- Developed Daraz University, a CMS platform for newsletters and seller stories within the Daraz Seller Center ecosystem, supporting tens of thousands of active sellers.
- Optimised frontend performance and maintained REST APIs serving tens of millions of monthly active users across South Asia, contributing to measurable reductions in page load time.

|

Dec 2018 – Sep 2019 • Karachi, Pakistan

- Developed mobile-friendly government portal modules for FAHR (UAE Federal Authority of Human Resources), digitising workforce capability management and HR workflows for a federal authority.
- Built B2B portal features for Etisalat enterprise clients, account management, bill payment, and purchasing workflows integrated with telecom backend systems.

|

Jan 2018 – Nov 2018 • Karachi, Pakistan

- Built Queno, a mobile-responsive educational communication platform connecting schools and parents, delivering real-time collaboration and engagement features.

- Atex Software

- Full-stack subscription lifecycle management covering customer onboarding, invoicing, accounts receivable, and renewal workflows for European publisher clients.
- Distribution management system with configurable campaign banners, upsell flows, and multi-brand product landing pages integrated with Stripe and AWS Cognito SSO.

- Personal Project (.NET Core / C#)

- Built a RESTful subscription management API using ASP.NET Core Web API and C#, with a PostgreSQL data layer, applying enterprise patterns (DI, layered architecture, EF Core) to deepen hands-on experience with the .NET ecosystem alongside existing Node.js/Rails/React expertise.

- Personal / Academic

- Designed and built a production-grade ETL pipeline ingesting data from Google Drive, CSV, JSON, PostgreSQL, MongoDB, Firebase, and REST APIs.
- Implemented data cleaning, normalisation, aggregation, feature engineering, and validation layers with an automated database loading foundation for ML-ready datasets aligned with MS Data Science coursework.

Jan 2024 – June 2026 • Karachi, Pakistan
